3D PRINTING OVERVIEW

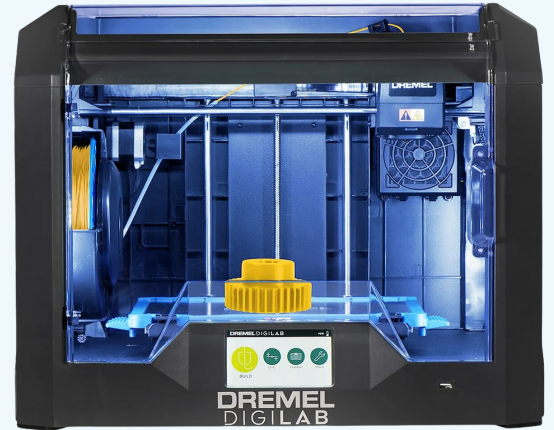

Libraries and 3D Printing

Libraries have always been the great equalizer for information and computer access, and having a 3D printer available opens 3D technology to all ages and skill sets. 3D printing also supports people developing knowledge and skills in STEM activities (Science, Technology, Engineering, and Math), allowing community members to create, design and innovate in new and inspiring ways

What printers and materials do you use?

The Library currently has one Dremel DigiLab 3D45 3D Printer, located in the 2nd floor computer lab at the Old Town Library. The DigiLab can print objects up to 10" x 6" x 6.7" in a variety of single colors.

The Library uses plant-based, recyclable PLA plastic (#7). PLA does not contain BPA and is not heat resistant. Objects created on the 3D printer are not food safe.

Can anyone use the 3D printer?

3D printing is available for all ages and open to the public. You do not need a library card to submit a 3D print or to watch items being printed on the 3D printer. However, only trained library staff will handle the 3D printer and associated equipment.

What does it cost?

3D printing cost is \$0.10 per gram of filament used. Total cost is based on the estimate given by the printing software program (plus tax). Printing charges are collected at pickup. Most 3D print items cost \$5 or less. When filling out a submission form, customers can select a maximum amount.

When will I get my 3D printed item?

Print times vary based on size, complexity, and the number of 3D prints waiting to be processed. Typically, 3D prints take between 5-14 days to be completed. For a current timeline estimate, please contact 3DPrinting@poudrelibraries.org

How do I start?

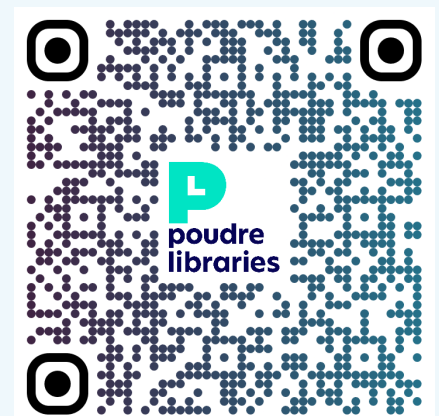

1. Visit our [Resources](#) page for modeling software, design libraries, and tutorials
2. Choose or create a 3D model to print
3. Save the model as .stl file or .3mf file (maximum size 50 MB)
4. Submit your 3D printing request

Contact Us

3DPrinting@poudrelibraries.org

3D Printing is available at:

Poudre River Public Library District
Old Town Library
201 Peterson Street
Fort Collins CO 80524

3D PRINTING GUIDELINES

Intended Use

The Library strives to offer community access to technologies that inspire creativity, learning and innovation. A 3D printer is available at the Old Town Library for library users to make three-dimensional objects using a design that is uploaded from a digital computer file. The Library's 3D printer may only be used for lawful purposes and be for objects appropriate for a public library.

Guidelines

1. Users will not be permitted to use the Library's 3D printer to create material that is:
 - a. prohibited by local, state or federal law
 - b. unsafe, harmful, dangerous, or an immediate threat to the well-being of others
 - c. construed as having the intent to harm
 - d. obscene or otherwise inappropriate for the Library environment
 - e. in violation of another's intellectual property rights
2. The print must fit within the printer's volume.
3. Printed objects must not infringe upon any third party's intellectual property rights. By submitting content or objects, the user agrees to assume all responsibility for, and shall hold the library harmless in, all matters related to patented, trademarked, or copyrighted materials.
4. The library is not responsible for any damage, loss, or security of data arising from the use of its computers, equipment or network, nor for the functionality or quality of content produced on the 3D printer.
5. Responsibility for removing rafts and supports is up to the user. The library cannot guarantee model quality or stability, or confidentiality of designs.
6. Only designated library staff and volunteers will have direct access to the 3D printer. Customers are welcome to come watch the 3D printer in action in the Old Town Library computer lab during open hours.
7. The Library reserves the right to refuse any 3D print request.
8. Use of the 3D Printer is subject to Poudre River Public Library District Policies, including but not limited to the Library Facility Usage Policy.

Removing Supports

Supports can be removed with many household tools. Using needle-nose pliers, butter knives or clam shuckers, cuticle trimmers, nail clippers, sandpaper, and small files is the easiest way to remove supports. Adults should help children use tools to remove supports on their 3D printed objects.

- Use a butter knife or clam shucker to loosen or pop off large sections of support structure.
- Remove large sections of support structure by prying them off with the pliers.
- Trim delicate sections with the cuticle trimmers or nail clippers
- File down rough spots with sandpaper or with small files. Using a Dremel/rotary tool works well, too.

QUICK PRINTS!

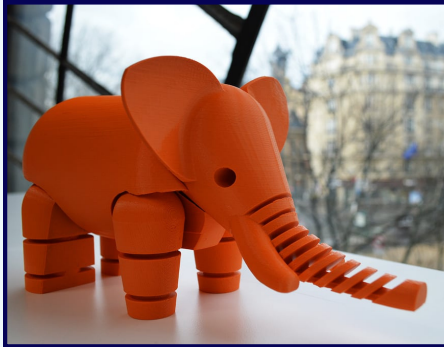

**New to 3D Printing? Not sure what to print?
Check out some of our ideas to get started!**

If you find a print you like, follow these easy steps to have it printed:

1. Click on the link or scan the QR code in the catalog.
2. Make sure to check the footnotes in the catalog to see if this print needs to be scaled down or submitted in multiple jobs.
3. Download the file(s) needed.
4. Head to the 3D print request form on our website:
<https://www.poudrelibraries.org/3dprinting/>
5. Input your contact information & a brief description of the print.
6. Upload the .stl or .3mf file you got earlier. Indicate color and quantity needed.
7. If your print has additional specifications (needs to be scaled down, has multiple parts, etc), please make a note of that in the comments.
8. Finally, indicate a maximum price for the print and if the file submitted is part of a project.
9. If your print requires multiple files, repeat steps 2-8 for each file.

Name *	Email *	Phone (xxx-xxx-xxxx)
<div>Brief description of item:</div>		
Color * (examples) Select from list	Upload a .stl or .3mf file less than 50MB <div>Browse...</div> No file selected.	Quantity * Select
<div>Comments:</div>		
<div>Payment options: Payment accepted via credit card or debit card. The library does not accept cash payments.</div>		
Maximum Authorized Per Print * \$5.00		
This request is part of a 3D print project requiring more than one file. <div><input type="radio"/> Yes</div> <div><input checked="" type="radio"/> No</div>		
<div><input type="checkbox"/> I have read and agree to the Library's 3D Printing intended use and guidelines and certify that I have intellectual property rights to authorize reproduction.</div>		
The library may take photos of your object or archive the file for use in marketing, publications, or sharing with others. Please let us know if this presents any issues.		
<div>Send your request</div>		

FIGURES/MODELS/TOYS

ARTICULATED ELEPHANT¹

Thingiverse

PRINTING SPECIFICATIONS

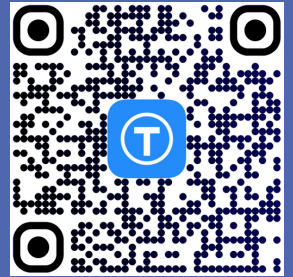

Dimensions: 90 mm X 42 mm x 32 mm

Weight: 27.38 g

Time to Print: 2h 32min

Approx. Cost: \$2.74

<https://www.thingiverse.com/thing:257911>

FRIENDLY ARTICULATED SLUG²

Thingiverse

PRINTING SPECIFICATIONS

Dimensions: 89 mm X 24 mm x 23 mm

Weight: 15.22 g

Time to Print: 1h 35min

Approx. Cost: \$1.52

<https://www.thingiverse.com/thing:4727448>

ARTICULATED CAT³

Printables

PRINTING SPECIFICATIONS

Dimensions: 71 mm X 54 mm x 8 mm

Weight: 13.15 g

Time to Print: 1h 12min

Approx. Cost: \$1.32

<http://tinyurl.com/printables-articulated-cat>

CHESS SET⁴

Thingiverse

PRINTING SPECIFICATIONS

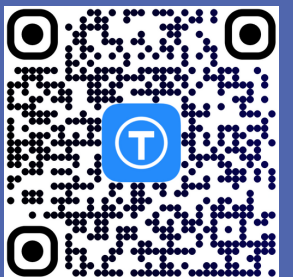

Dimensions: see footnote

Weight: 238.17 g (total, 16 pieces)

Time to Print: 23h 14min (total, 16 pieces)

Approx. Cost: \$23.82 (total)

<https://www.thingiverse.com/thing:470700>

1. Elephant by [LeFabShop](#) is licensed under the [Creative Commons - Attribution - Non-Commercial - No Derivatives](#) license.

2. Friendly Articulated Slug by [_Isaiah_](#) is licensed under the [Creative Commons - Attribution - Share Alike](#) license.

3. Articulated cat by [Jacek Maryniowski](#) licensed under a [Creative Commons \(4.0 International License\) Attribution](#).

4. Spiral Chess Set by [BigBadBison](#) is licensed under the [Creative Commons - Attribution - Non-Commercial](#) license.

a. Estimates based on printing one complete chess set (16 pieces). Must be submitted as separate jobs to fit within time limits. Our recommendation is to submit in 7 jobs (1 king, 1 queen, 2 rooks, 2 bishops, 2 knights, 4 pawns, & 4 pawns).

ASSISTIVE TECH, GADGETS, & HANDY STUFF

WEEKLY PILL CASE¹

Thingiverse

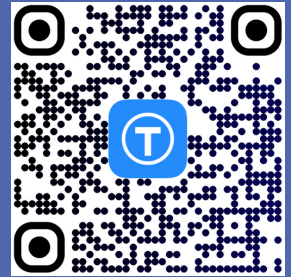

PRINTING SPECIFICATIONS

Dimensions: 76 mm X 76 mm x 20 mm

Weight: 51.06 g (total, 3 pieces)

Time to Print: 5h 23min (total, 3 pieces)

Approx. Cost: \$5.11 (total) <https://www.thingiverse.com/thing:2954076>

PULL-TAB CAN OPENER²

Thingiverse

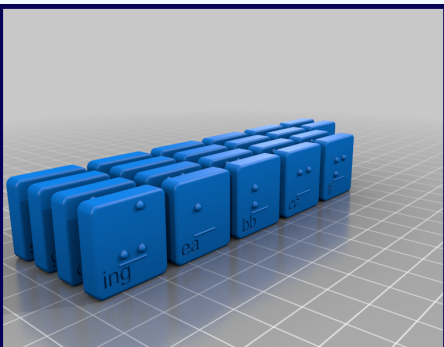

PRINTING SPECIFICATIONS

Dimensions: 116 mm X 32 mm x 8 mm

Weight: 13.25 g

Time to Print: 1h 5min

Approx. Cost: \$1.33 <https://www.thingiverse.com/thing:3641470>

EDUCATIONAL BRAILLE BOARD³

Thingiverse

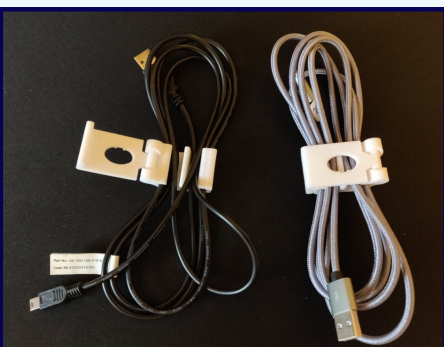

PRINTING SPECIFICATIONS

Dimensions: 132 mm X 36 mm x 21 mm

Weight: 43.89 g

Time to Print: 4h

Approx. Cost: \$4.39 <https://www.thingiverse.com/thing:6283586>

CABLE ORGANIZER CLIP⁴

Thingiverse

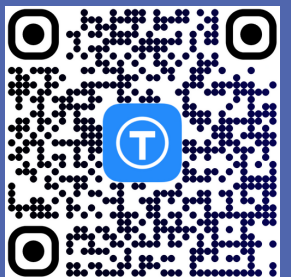

PRINTING SPECIFICATIONS

Dimensions: 56 mm X 43 mm x 25 mm

Weight: 11.40 g

Time to Print: 1h 7min

Approx. Cost: \$1.14 <https://www.thingiverse.com/thing:5172351>

1. Weekly Pill Case / Organizer with Personalized Monogram Screw by Printfutura is licensed under the Creative Commons - Attribution - Non-Commercial license.

a. Estimates are based on the 3 separate pieces (lid, base, screw) that need to be printed for this.

2. Universal Ring Pull-Tab Can Opener by VegasGuy is licensed under the Creative Commons - Attribution - Non-Commercial - No Derivatives license.

3. Educational Magnetic Braille Board for Kids - Learn Spelling and Braille by bigcharlton is licensed under the Creative Commons - Attribution - Share Alike license.

a. Estimates based on the basic braille set, not the letters & digraphs set (that one takes 8h to print and would need to be broken into multiple files).

4. Cable organizer clip with hinge by Plunderknabe is licensed under the Creative Commons - Attribution license.

FIDGET TOYS & PUZZLES

CUBE PUZZLE QUARTET¹

Thingiverse

PRINTING SPECIFICATIONS

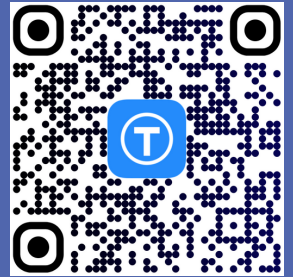

Dimensions: 63 mm X 52 mm x 20 mm

Weight: 19.87 g

Time to Print: 1h 37min

Approx. Cost: \$1.99

<https://www.thingiverse.com/thing:1565383>

FIDGET SPHERES²

Thingiverse

PRINTING SPECIFICATIONS

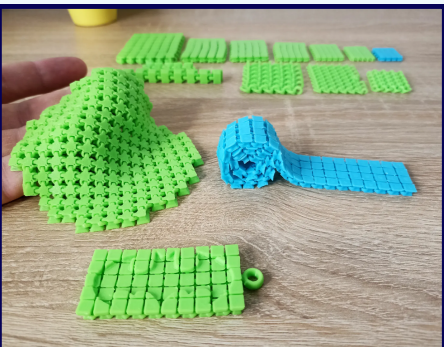

Dimensions: 41 mm X 41 mm x 32 mm

Weight: 22.60 g

Time to Print: 2h 11min

Approx. Cost: \$2.26

<https://www.thingiverse.com/thing:2768453>

ARTICULATED PLATE³

Thingiverse

PRINTING SPECIFICATIONS

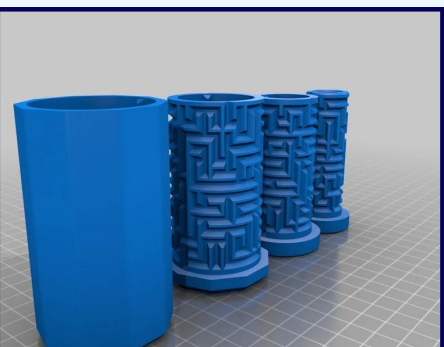

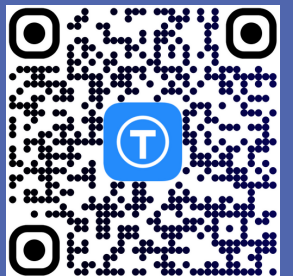

Dimensions: 87 mm X 79 mm x 6 mm

Weight: 29.18 g

Time to Print: 3h 19min

Approx. Cost: \$2.92

<https://www.thingiverse.com/thing:6321673>

NESTED MAZE PUZZLE BOX⁴

Thingiverse

PRINTING SPECIFICATIONS

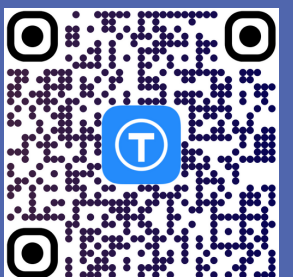

Dimensions: 55 mm x 48 mm x 84 mm

Weight: 145.23 g (total, 4 pieces)

Time to Print: 13h 9min (total, 4 pieces)

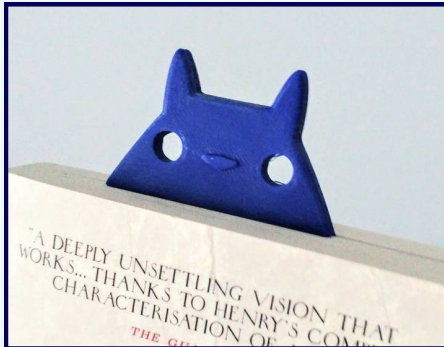

Approx. Cost: \$14.52 (total)

<https://www.thingiverse.com/thing:2607374>

1. Cube Puzzle Quartet by mathgrll is licensed under the Creative Commons - Attribution - Non-Commercial license.
 - a. Estimate is based on printing just the NOB puzzle.
2. Fidget spheres 2, 5, 7 by NOP21 is licensed under the Creative Commons - Attribution - Non-Commercial - No Derivatives license.
 - a. Estimate is based on printing only sphere 5 (medium-sized).
3. Articulated Plate - No Support (Made with our easy software) by MumiNett is licensed under the Creative Commons - Attribution - Non-Commercial - No Derivatives license.
4. Russian Doll Maze Puzzle Box by 3DFabXYZ is licensed under the Creative Commons - Attribution license.
 - a. Estimates are based on printing all four pieces (inner, center, outer, blank lid). Each piece must be submitted as a separate job in order to stay within time limits.

BOOKMARKS

TOTORO BOOKMARK¹

MyMiniFactory
