Photography Policy

The Poudre River Public Library District strives to maintain an environment in which residents and guests are able to use the Library’s resources, services and programs as effectively as possible. A photography and recording policy has been established to govern photography and the use of recording devices by Library staff and the public in order to ensure that this activity does not interfere with the delivery of Library services and that personal privacy is maintained.

POLICY

Casual amateur photography is permitted in Library facilities for library users and visitors wanting a remembrance of their visit. Photography is allowed to the extent that it does not interfere with the provision of library services, and does not violate the Library District’s Behavior Policy. Photography intended for commercial use requires prior permission and is subject to restrictions.

Persons photographing, videotaping, or recording on library premises are responsible for obtaining releases and permissions from persons who are to be photographed, videotaped, or recorded. Taking photographs or videotaping of a minor, an individual under the age of 18, requires the permission of the minor’s parent or guardian. The library undertakes no responsibility for obtaining these releases.

Photography and/or recording during a program presented by a hired specialist, or author is subject to the contractual agreement between the presenter and the Library District.
